The estimate amounting to Rs 22,000 for the work is checked and corrected to Rs 20 000 inclusive of Government Architect's fees The reduction is due to certain changes in rates made in the estimate based on data sheet corrections

3 19) In this connection, it is seen that the rates provided for certain non-tendered items of works are high when compared with the schedule of rates of Buildings Division These rates have however been retained as they are as per schedule of rates of the unicipality As it is not desirable to have different rates for the same items of works in the same locality it seems that the schedule of rates of the Municipality require revision to be on a par with the schedule of rates of the Buildings Division

Letter No C 2 C 2329/38-39, dated 5/6th May 1939 from the Municipal Commissioner, Bangalore, to the Secretary to Government, Local Self Government Department

---

With reference to your letter No. 9098/G G 103-38-2, dated 18th April 1939 in the matter of improving the Sampige Tank, I have the honor to forward herewith a copy of the resolution of the Municipal Council approving the construction of a swimming pool to the east of the Mallikarjuna temple to the north of the Municipal Offices and secondly the improvement of the existing kalyani in Sampigehalli tank

As regards the latter, the Municipal Council have -- resolved that a sum of Rs 3,000/- may be spent for improving the existing ponds in the Sampige Tank provided that the -- Government do not insist upon the conditions specified in their letter dated 18th April 1939

The balance of Rs 2,000/- is proposed to be spent during the current official year for the construction of the pool referred to in para 1 It is proposed to complete the improvement of the Sampige Tank pond before the end of the current official year

A copy of the rough sketch relating to the construction of a pool to the east of Mallikarjuna temple is enclosed herein for favour of perusal

The existing pond in the south west corner of the Sampige tank is now used to the poorer classes of the City throughout the year and by the Dharmaraya temple durirg the Karaga festival There is an old and dry pond to the east of Mr A S R Chari's house on the Lal Bagh road and if permissior is accorded by the Government to remove those stones, they wil be used to improve the pond in question The mere removal

these stones and cost of labour in fixing them up are estimated to cost Rs 3,000/- It is not proposed to pump in any water regularly to this pond as it would be very expensive As in any case the gardens department will have to pump up water, they could use any of the neighbouring wells for the purpose

The proposed swimming pond will be outside the tank area and the idea is to charge fees for the use of it It will be an up-to-date swimming pond and due provision will be made in the budget for 1939-40 for completing the work

---

C O P Y

3

Proceedings of the Special meeting of the City Municipal Council, Bangalore, held on 20th April 1939 in the Council Chamber of the Bangalore City Municipal offices at 5 p m

---

Subject No 1

To approve of the plan and estimate for the construction of swimming pool

---

The President explained to the House that the Commissioner had addressed the Government in the matter of utilising the Sampige pond for washing and bathing ghat at a cost of Rs 5,000 and that the Government had laid down some severe conditions under which they were willing to permit the Municipality to use the pond, that these conditions are likely to land us in complications in the actual working and therefore cannot be accepted by the Municipality He also read out the report of the Municipal Engineer in the matter of constructing a swimming pool to the east of the Mallikarjuna temple on municipal property and observed that the proposal of the Municipal Engineer re the swimming pool may be accepted

Mr D Rameswara Sa observed that the area proposed was too small and said that if at all they wanted to provide such amenities it was better they thought of bigger pools The President said that the area proposed was quite reasonable for an artificial swimming lake and that the same may be adopted

Then the proposal of the Municipal Engineer regarding the swimming pool was approved

The next point for consideration was the proposal of the Municipal Engineer to improve the existing kalyani in Sampige Tank and the President said that the Municipal Engineer wanted to utilise the stones of a kalyani in Sampigehalli village for improving the existing pond in Sampige tank and that this scheme would cost only Rs 3,000/- He also observed that the proposal of the Municipal Engineer may be approved provided the conditions contained in the letter received from Government are not enforced and that they may intimate Government that they would take up the improvement of the pond without these conditions To a question put by Dr Royan whether the idea of Government in laying these conditions was to prevent such improvements to the pond, the President said that as the tank was under their control they were at liberty to lay certain conditions, and that the Municipality may also intimate to them their willingness to effect improvements without these conditions as Government have not indicated to contribute anything towards this

Mr B Abdur Rahmon observed that as the tank vests with them the Government were justified in laying these conditions and that it is no good questioning the desirability of such conditions He observed that it was not wise to spend money on a property which was not municipal, and that it was better some more money is spent on municipal property and have a good washing and bathing ghat

Mr D Venkataramanappa thanked the President and the Commissioner for their proposals and requested that early action may be taken in this behalf -- ----- --

Then the proposal of the Municipal Engineer regarding improvements to the pond was approved unanimously and it was resolved that a sum of Rs 3,000/- may-be spent for these improvements provided that the Government do not insist upon their conditions

SIR

Construction of a swimming pool inside the Municipal office compound
--

I have the honour to state that the question of constructing a swimming pool on modern lines has been taken up by the Municipal Council and an estimate for r 20 200/- received for this wor from the Assistant Engineer was approved at their meeting held on 8-1-19 0 They have further resolved that the work excluding the portion of inlet and outlet for water be entrusted to the contractor Mr C Venkatappa and that he be paid tendered rates for tendered items and scheduled rates for non-tendered items

The tenders of r r adhava Rao for 5,690-14-0 for laying C I pipe line connection to the inlet and of Rs 1,539/- for outlet portions have been approved by the Council at their meeting held on 14-11-1939 -- Copies of the connected r solutions are herein enclosed

In the circumstances, I request the favour of your obtaining sanction of Gover ent to the enclosed estimate for Rs 20,200/- and also to entrust the respective items of work to Mr C Venkatappa and to Mr adhava Rao, as

as resolved by the Council

I have the honour to be,

REGARDING construction of a swimming pool in the Municipal Office compound.

—

With reference to your letter No L 1584 dated 3rd August 1939 regarding the construction of a swimming pool in the premises of this Office, I have the honour to state that an estimate for Rs. 31,800/- for this work was received from the Municipal Engineer and the same was placed before the Managing Committee at their meeting held on 16th August '39 They have resolved that the said estimate is too high and that the same be revised for the time being. The Municipal Engineer has been accordingly requested to send a revised estimate A copy of the resolution of the Managing Committee is submitted for kind perusal
